<p>(e) Common Equity Tier 1, Tier 1 and Total Capital ratios:</p> <ul style="list-style-type: none"> <li>• Common Equity Tier 1</li> <li>• Tier 1</li> <li>• Total Capital ratio</li> </ul>	<p>7.90% 8.07% 10.15%</p>

## **General qualitative disclosure requirement**

A committee of board of Directors regularly oversees the Bank's Risk Management policies/practices under various risks viz. credit, operational, market etc. The bank also has separate committees for each risk comprising of top executives of bank headed by Chairman and Managing Director/ Executive directors such as Asset liability Management committee, Credit policy Committee, Operational Risk committee. These committees meet at regular intervals throughout the year to assess and monitor the level of risk under various bank operations and initiate appropriate mitigation measures wherever necessary.

The Risk Management Department at central office level which is headed by General Manager; measures, control and manages risk within the limits set by the Board and enforces compliance with risk parameters set by various committees. The General Manager is assisted by Deputy General Manager and a team of Assistant General Managers, Chief Managers, Senior Managers and Managers.

At some identified zonal offices, Risk Managers are posted who act as an extended arm of the Risk Management Department of Central Office. Officers are also identified at some regional offices to work as risk managers.

The bank has in place various policies such as Credit Risk Management Policy, Credit Risk Mitigation and Collateral Management Policy, Stress testing policy, Market Discipline & Disclosure policy, Intra group transaction and exposure policy, Operational risk policy, ALM policy and Investment and Market risk management Policy.

Besides these, the Loan Policy prescribing broad parameters governing loan functions, guidelines on appraisal and evaluation of credit proposals, lending powers of delegated authorities' exposure norms, prudential limits and measures, monitoring and controlling the credit portfolio is also in place.

The Credit Monitoring Department headed by General Manager monitors the loan portfolio, identify special mention accounts and take corrective measures. Loan review mechanism is also carried out by the department apart from processing and monitoring of accounts under CDR mechanism.

The bank has introduced rating models for various segments of borrowers including retail lending schemes which measures the risk associated with counterparties and helps in credit and pricing decisions. In case of large borrowers, credit risk assessment models evaluate financial risk, Industry risk, Management risk and business risk of the counter party and each of these

risks are scored separately then overall rating is accorded to the counter party. Facility rating module is also available in the rating tool. Where parental support is available the same is also factored in rating, if corporate guarantee is available to the borrower

**Table DF-3**  
**Credit risk: General disclosures for all banks**

**Qualitative Disclosures**

**Credit risk**

Definitions of past due and impaired

A Non-Performing Asset shall be a loan or an advance where-

- (i) Interest and/or installment of principal remain overdue for a period of more than 90days in respect of a Term Loan;
- (ii) The account remains out of order for 90 days
- (iii) The bill remains overdue for a period of more than 90days in the case of bills Purchased and Discounted
- (iv) In case of advances granted for Agricultural purposes
  - a) The installment of principal or interest thereon remains overdue for two crop seasons for short duration crops
  - b) The installment of principal or interest thereon remains overdue for one crop seasons for long duration crops
- (v) The amount of liquidity facility remains outstanding for more than 90 days, in respect of a securitization transaction undertaken in terms of guidelines on securitization dated February 1, 2006.
- (vi) in respect of derivative transactions, the overdue receivables representing positive mark to- market value of a derivative contract, if these remain unpaid for a period of 90 days from the specified due date for payment.

**Out of Order:**

An account should be treated as “out of Order” if the outstanding balance remains continuously in excess of the sanctioned limit/drawing power. In cases where the outstanding balance in the principal operating accounts less than the sanctioned limit/drawing power, but there are no credits continuously for 90 days as on the date of balance sheet or credit are not enough to cover the interest debited in the account during the same period.

**Overdue:**

Any amount due to the bank under any credit facility is overdue if it is not paid on due

date fixed by the bank.

### Credit Risk Management Policy

Bank has put in place a well-articulated Board approved Credit Risk Policy which is reviewed annually. The policy deals with the following areas:

- Credit risk- definition, Policy and strategy
- Risk identification & measurement,
- Risk grading and aggregation,
- Credit risk rating framework and reporting,
- Risk control and portfolio management,
- Mitigation techniques,
- Target markets and type of economic activity,
- Credit approval authority,
- Country and currency exposure,
- Maturity patterns, level of diversification,
- Cyclical aspect of the economy,
- Credit risk in off balance sheet exposure,
- Credit risk monitoring procedures
- Managing of credit risk in inter Bank Exposure,
- Country risk and other operational matters.

**Table DF-4**

**Credit risk: disclosures for portfolios subject to the standardized approach**

**Qualitative Disclosures**

- a. The Bank has adopted Standardized approach for computation of capital charge for Credit risk as per RBI guidelines. These guidelines envisage different risk weights for different asset classes, which have been duly applied.
- b. The Bank has recognized the ratings issued by six External Credit Rating Agencies identified by RBI viz., CRISIL Ltd., CARE, ICRA Ltd., India ratings and research pvtltd, SMERArating ltd and BRICKWORK to rate the exposures of its clients.
- c. These agencies rate all fund and non fund based exposures. The ratings awarded by these agencies to the bank's clients are adopted for assigning risk-weights.
- d. In case of bank's investment in particular issues of Corporate, the issue specific rating of the rating agency is reckoned to assign the risk weight.

--	--

**Table DF-7**  
**Market risk in trading book**

**Qualitative disclosures**

The bank has well defined Investment and Market Risk Management Policy. This policy covers all important areas of market risk measurement.

Bank defines Market Risk as the risk of loss in on-balance sheet and off-balance sheet positions arising from movements in market process, in particular, changes in interest rates, exchange rates and equity and commodity prices.

The bank has adopted Standardized Duration Approach for measuring the capital requirements for market risk as prescribed by RBI.

**Policies for management of Market Risk:**

The bank has put in place board approved Investment and Market Risk Management Policy for effective management of Market Risk in the bank. Other policy which also deal with Market Risk Management are Asset Liability Management Policy.

The policies set various prudential exposure limits and risk limits for ensuring that the operations are in line with bank's expectations of return through proper Market Risk Management and Asset Liability Management.

**Asset-Liability Management**

The ALM Policy is the framework of the ALM process. Bank's balance sheet has mixed exposure to different levels of financial risk. The goal of bank is to maximize its profitability, but do so in a manner that does not expose the bank to excessive levels of risk which will ultimately affect the profitability. The Policy defines the limits for key measure of risk limits that have been established to specifically accommodate a bank's unique balance complexion, strategic direction, and appetite for risk.

**Liquidity Risk**

Liquidity Risk is managed through GAP analysis, based on residual maturity/behavior pattern of assets and liabilities. Banks has also put in place mechanism of short term

dynamic liquidity management and contingency funding plan. Prudential limits are prescribed for different residual maturity time buckets for efficient Asset Liability Management. Liquidity profile of the bank is also evaluated through various liquidity ratios.

**Interest rate risk**

Interest rate risk is managed through Gap analysis of rate sensitive assets and liabilities and is monitored through prudential limits. Bank also estimates risk periodically against adverse movements in interest rate for assessing the impact on Net Interest Income and economic Value of Equity.

**Quantitative disclosures**

<b>Capital Requirement for Market Risk</b>	<b>Capital Charge (Rs. in Mn)</b>
<b>Interest Rate Risk</b>	Rs.8047
<b>Equity Position Risk</b>	Rs.7377
<b>Foreign Exchange Risk</b>	Rs. 40
<b>TOTAL</b>	<b>Rs15464</b>

**Table DF-8**

**Operational risk**

**Qualitative disclosures**

Operational Risk is the risk of losses resulting from inadequate or failed internal processes, people and systems or from external events. Operational Risk includes legal risk but excludes strategic and reputation risks. Operational Risk Management in the Bank is guided by a well defined Operational Risk Management Policy which is reviewed every year. The bank has initiated pro-active steps to equip itself to migrate to advanced approaches under Operational Risk and has started collation of data pertaining to Operational Risk loss events through Loss Data Management, Risk & control Self Assessment (RCSA), Key Risk Indicators (KRI) & Scenario Analysis. Bank is also a member of loss data consortium ‘CORDEX’ for external loss data base.

The Bank had already approached RBI for moving to The Standardized Approach and is

now making efforts to move directly to Advance Measurement Approach.

The bank has provided capital for operational risk as per Basic Indicator Approach. Accordingly the capital requirement for operational risk as on 30.09.2016 is Rs.11806 mn.

**Table DF-9**  
**Interest rate risk in the banking book (IRRBB)**

**Qualitative Disclosure:**

The interest rate risk is measured and monitored through two approaches:

- 1) Earning at risk (Traditional Gap Analysis)  
The impact of change in interest rates on net interest income is analyzed under this approach and calculated under yield curve approach. Under this approach a parallel shift of 1% is assumed both in assets and liabilities.
  
- 2) Economic Value of Equity:  
Modified duration of assets and liabilities is computed separately to arrive at modified duration of equity. A parallel shift in yield curve by 200 basis point is assumed for calculating the economic value of equity.

**Quantitative Disclosure**

<b>Parameter of Change</b>	<b>Rs. in Mn</b>
1.Impact on Earnings at 100 bps increase in interest rate across assets and liability	460
2.Market value of Equity: 200 bps change	-11717

**Table DF-10**

**General Disclosure for Exposures Related to Counterparty Credit Risk**

<b>Qualitative Disclosures</b>	(a)	<p>The bank assigns credit limits for counterparty exposure on the basis of capital adequacy, asset quality, earnings, liquidity and management quality.</p> <p>The bank has well defined investment and market risk management policy.</p> <p>The Bank deals in various derivative products and interest Rate Swaps. The bank used derivative products for hedging its own balance sheet items as well as for trading purposes.</p>

**Table DF-13: Main Features of Regulatory Capital Instruments**

**The main features of Tier - 1 capital instruments are given below:**

<b>Details</b>	<b>Equity</b>
Issuer	CENTRAL BANK OF INDIA
Unique identifier (e.g. CUSIP, <b>ISIN</b> or Bloomberg identifier for private placement)	INE483A01010
Governing law(s) of the instrument	Indian Laws
<i>Regulatory treatment</i>	
Transitional Basel III rules	Common Equity Tier 1
Post-transitional Basel III rules	Common Equity Tier 1
Eligible at solo/group/ group & solo	Solo and Group
Instrument type	Common Shares
Amount recognised in regulatory capital (Rs. in million, as of most recent reporting date)	18850

Par value of instrument	Rs. 10 per share
Accounting classification	Shareholder's Equity
Original date of issuance	Various
Perpetual or dated	Perpetual
Original maturity date	N.A.
Issuer call subject to prior supervisory approval	No
Optional call date, contingent call dates and redemption amount	N.A.
Subsequent call dates, if applicable	N.A.
<i>Coupons / dividends</i>	
Fixed or floating dividend/coupon	Floating
Coupon rate and any related index	N.A.
Existence of a dividend stopper	No
Fully discretionary, partially discretionary or mandatory	Fully discretionary
Existence of step up or other incentive to redeem	No
Noncumulative or cumulative	N.A.
Convertible or non-convertible	N.A.
If convertible, conversion trigger(s)	N.A.
If convertible, fully or partially	N.A.
If convertible, conversion rate	N.A.
If convertible, mandatory or optional conversion	N.A.
If convertible, specify instrument type convertible into	N.A.
If convertible, specify issuer of instrument it converts into	N.A.
Write-down feature	N.A.
If write-down, write-down trigger(s)	N.A.
If write-down, full or partial	N.A.
If write-down, permanent or temporary	N.A.
If temporary write-down, description of write-up mechanism	N.A.
Position in subordination hierarchy in liquidation (specify instrument type immediately senior to instrument)	All depositors and others Creditors, bonds, and PNCPS
Non-compliant transitioned features	No
If yes, specify non-compliant features
